Work Experience

TCS as Assistant System Engineer -Java
Jun 2019 to Till Date

Have worked for GE Power which is the world's energy leader for providing energy equipments and solutions across the energy
value chain. I was a part of GE Alpha to CS Upgrade Project which handles the turbine business. It basically deals with the
upgradation of Oracle apps. We were a team of 4 members including a team lead and were responsible for the resolution of any
bugs which we would encounter or were flagged by the client. We mainly used Jdeveloper tool and worked on java and XML
files. I also closely worked with a team which were responsible for filtering out further bugs using Python Scripts.
