SARATH SL ⭐ Featured

SARATH SL

Serving NP
Data scientist with a demonstrated history of working in financial and healthcare domains. Expertise in mining hidden knowledge from large datasets, EDA, data visualization and implementing machine learning / deep learning models..

Current Designation: Data Scientist

Current Company: Capgemini

Current Location: Pune

Pref. Location: Mumbai,Bengaluru / Bangalore,Pune

Functional Area: IT Software - Application Programming / Maintenance

Role: Team Lead/Tech Lead

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Machine Learning, NLP, Computer Vision, Application Development, Deep Learning, Python, C++, Data Structures, SQL, MongoDB, Tableau, Azure, Github, Jenkins, Data Science, , Statistics,

Verified : 📞 Phone Number | Email - id

Total Experience: 5 Year(s) 6 Month(s)

Notice Period: Currently Serving Notice Period

Highest Degree: PGP [Artificial Intelligence and Machine Learning]

Last Active: 22-Jan-21   Last Modified: 22-Jan-21

Summary

Experienced at collecting, analyzing, and interpreting large datasets, developing new forecasting/Predictive models, and executing data driven solutions to increase the efficiency, accuracy and utility of internal data processing.
Possessing extensive AIML skills, strong attention to detail, and a significant ability to work in team environments.
Technically sophisticated professional with a Post Graduate in AIML from Great Lakes Institute of Management.

Work Experience

⊙ **Capgemini** as Data Scientist
May 2019 to Till Date

Experience working with medical imaging data (3D, multiparametric, multimodal data)
Expertise in developing deep learning, computer vision applications using libraries and platforms, such as Keras, TensorFlow
Medical documents text extraction.
Model building and performance evaluation using feature engineering.
Designed Distributed algorithms for identifying trends in data and processing them effectively.
Design, build and automate C++ /Python code.
Experience in using continuous integration SW development workflows.

⊙ **INFOSYS TECHNOLOGIES LIMITED** as Technology Analyst
Feb 2015 to May 2019

Cater to the gathered requirements by developing and enhancing Python, C++ and SQL applications.
Experienced in working with Equities and derivatives related projects.
Resolve issue related to various trade feeds for HBEU and HBAP region.
Software development using DEVOPS technique.
Worked as a full time software developer involved in various phases of software development life cycle.
