Role: **Other**   Team Size: **8**
Skill Used: **Documentation, Business Process Management, Business Analysis, Brd, User Stories**
Role Description: **business analyst**
Project Details: Virtual Sales Manager is an e-commerce platform which provides a single window for complete information of Max Life Term Insurance products. Virtual Sales Manager provides capability to customers to buy the insurance products online. VSM makes it easier and quicker for customers to buy insurance products. Details reports are generated that assist management in taking decisions to optimize the process through CRM and tracking of leads through CRM.

- Project Title: **Bright Hospital Billing Management System**
Client: **Bright Star Hospitals**
Nature of Employment: **Full Time**   Duration: **Oct 2019 - Jun 2020**
Project Location: **Hyderabad**   Onsite / Offsite: **Onsite**
Role: **Other**   Team Size: **10**
Skill Used: **Business Process Management, Business Analysis, Requirement Gathering, Gap Analysis**
Role Description: **Business Analyst**
Project Details: Bright Hospital Billing Management System is to build an easy to access hospital management out-patient (OP) billing software by creating user friendly and effective system to increase hospital revenue through the new OP billing system. Internal staff can fix appointments, track doctor's observations, track employees attendance, streamlining billing across all billing counters and generate KPI reports.

- Project Title: **Suddenlee toolbar**
Client: **suddenlee**
Nature of Employment: **Full Time**   Duration: **Aug 2018 - Sep 2019**
Project Location: **Hyderabad**   Onsite / Offsite: **Onsite**
Role: **Other**   Team Size: **6**
Skill Used: **Business Process Management, Business Analysis, Requirement Gathering, Requirements Management, User Documentation**
Role Description: **Business analyst**
Project Details: To create an installable toolbar that works in multiple browsers and would allow users to add items to the suddenlee.com shopping cart from outside websites. This service allows customers to add items from multiple retail website, checkout on one website (Suddenlee) and have the product hand-delivered to their door. Suddenlee wanted a user to be able to drag-and-drop the tool into their browser and then be able to shop 3rd party websites. The toolbar features an "Add to Suddenlee" button and exacts product information from the page the user is visiting. It then takes that information and adds it to the customers Suddenlee Shopping Cart.
