Work Experience

Resource One It Solutions as UI Developer
Nov 2016 to Till Date

Project#1:
Allocation Management System (My Chemist) SEP 2019 - Till Date
My Chemist is a group of independent Pharmacies, who share a common philosophy where it is dedicated to the health and well being of you and your family. With over 40 stores in Victoria, New South Wales, Tasmania and Western Australia. The firm's desire is to provide clients with the most effective and efficient solutions for health, whilst providing advice and updated information
The AMS is built for the sake of the direction and control of activities with the purpose of getting the right inventory in the right place at the right time in the right quantity in the right form at the right cost.
The organization's goal is to provide an online Inventory system with enhanced quality by integration and automation of the business process through an appropriate IT solution. This would in turn increase the profits of the organization due to better market penetration and increased customer base.
Responsibilities:
* Responsible for creating single page applications using Angular
