Work Experience

🔘 **Quinnox** as Scrum Master, PMP, PSM
Dec 2006 to Apr 2020

Quinnox (Nov 2019 - April 2020)Location: Bangalore
Client/Product: WSO2
Role: Scrum Master
Project Description:
WSO2 is an open-source technology and allows developers to integrate services and applications in an easy, efficient and productive manner. This project is about integrating applications, interfaces which involve different data formats for WSO2 external
customers.
Major responsibilities as Scrum Master - ? Build and lead high-performing and self-organizing, cross-functional teams, in order to deliver quality throughput. ? Responsible for protecting the team from outside interference and takes a leadership role in removing impediments or
aiding to remove impediments. ? Formulate the DOR and DOD for the Sprint and Release in consent with the Development team & PO. ? Coach and educate the team to understand the values of Scrum. ? Improve the engineering practices and tools so that each increment of functionality is potentially shippable. ? Interact with leadership team and help with early indicators towards outcomes (Predictability, release frequency,
quality).
Quinnox (Oct 2019 - Nov 2019) Location: SriLanka
Client/Product: WSO2
Role: Scrum Master /Senior Consultant
Project Description and responsibilities:
WSO2 product support is to provide L1,L2 and L3 technical support to WSO2 customers. I went to WSO2 Colombo office for knowledge transition for the incident/query created by customers which is in production and non production environments where a failure of a system will impact on the end users and on the organization.

Quinnox (Aug 2018 - Sep 2019)Location: Bangalore
