Chittaranjan Patra

Systems Integration Analyst seeking roles in Robotic Process Automation(UI PATH) ,IT Process Automation(BMC AO),UNIX ,XML ,Server Configuration, Release Deployment, Automation Development X-path ,Service Now, BMC Remedy ,SQL.

Current Designation: Systems Integration Analyst

Current Company: Horizontal Integration

Current Location: Pune

Pref. Location: Bengaluru / Bangalore,Pune,Chennai

Functional Area: IT Software - Application Programming / Maintenance

Role: System Analyst

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: ITPA Automation Development ,RPA Automation Development,UI Path,Bmc Remedy,BMC Atrium Orchestrator,Server Configuration,UI Path Orchestrator,ITIL,Production Support,Debugging,Bug Fixing,XML,XSLT,XPath,Axway

Total Experience: 4 Year(s) 2 Month(s)

Notice Period: 1 Month

Highest Degree: B.Tech/B.E. [ENTC]

Verified : 📞 **Phone Number | Email - id**

Last Active: 22-Jan-21   Last Modified: 22-Jan-21

Jump to Section ▶   **Work Experience** | **Education** | **IT Skills** | **Projects** |

Summary

*   Possess an integrated skill set in diverse functional areas - Automation

Development (RPA & IT Process Automation), Server Configuration, Release Deployment and Monitoring.

*   Gained extensive technical exposure while working on diverse projects using different skill sets.

*   Developed and Supported Automation Projects as well as worked in Production Support Role.

*   Responsible for Development of Automation Workflows on Agile Development Methodology.

*   Developed Automation Workflows based on Feasibility of Automation Tools for Use case Scenarios.

*   Responsible for Tasks related to Server Upgradation and Patching under the supervision of L2 and L3 from onsite.

Work Experience

🔘 **Horizontal Integration** as Systems Integration Analyst
Jun 2020 to Till Date

Key Result Areas:
*   Hands On experience with BMC Atrium Orchestrator tool (ITPA).

*   End to end coordination with various teams in framing and developing the workflows for the existing manual IT operations, Debugging and deploying them in production.

*   Working over all the major/minor changes by debugging the logs, fixing the error and later deploying the new version of developed workflow.

*   Monitoring the Compensations received for the deployed workflows and fixing them. Later deploying them back through a New Change Request

🔘 **Cognizant** as Automation Developer
Jul 2016 to Jun 2020

Cognizant (Client Merck), Automation Developer Dec'18-June'20 --- --- Key Result Areas(BMC Atrium Orchestrator - IT Process Automation): Hands On experience with BMC Atrium Orchestrator tool (ITPA) for developing Automation workflows. End to end coordination with various teams in framing and developing the workflows for the existing manual IT operations, Debugging and deploying them in production. Using Various Webservices (REST & SOAP) to generate Request and Response in JSON/XML from external Applications. Technical review and performing Dry Run before client and various other stakeholders. Working on framing the Release Document and Change list of the automated workflow designed for various ongoing operations. Testing the Workflows in Non-Pilot Environment using ALM/EERA Tool.

for various ongoing operations. Testing the Workflows in Non-Pilot Environment using ALM VEERA Tool. --------------------
-- Key Result Areas(UiPath - RPA):
Worked with SME's to create PDD (Process Definition Document) and developed separate SDD (Solution Design
Documents). Implemented End to End Robotic Process Automation (RPA) using UiPath. Used Screen Scraping, Data
Scrapping method to extract text from running window application by appropriate output methods such as native, Full
text and OCR. Used Excel automation for repetitive Excel data entry, appending and for comparing columns. Used
UiPath Orchestrator for deployment, monitoring and management of UiPath Robot automation activity. Participated with
test teams during the Product test and UAT phases to fix assigned bugs. Involved in code review and fine tuning the
code for performance related issues. Working closing with different teams in making changes in developed processes
as per the technical design document (TDD) to meet the defined requirements. ---
--- Cognizant (Client 2), Production Support Analyst Sept'16 -
Nov18 Covering the L 1.5 level task involving Minor Patching Activities and Release Deployment on servers. Server
Configuration task under the surveillance of L2 and L3 team members. Monitoring the status of the Servers and acting
according as per the status Preparing the Change Request and responsible for taking all the approvals from Technical
Heads and Business Heads. Taking Ownership of the Disruption if any and recording it in Problem ticket as a part of
Problem Management.

Education

UG: **B.Tech/B.E. (ENTC)** from **Dr.BAMU University, Aurangabad** in **2015**

IT Skills

Projects

- Project Title: Automation solution
  Client: UTS
  Nature of Employment: **Full Time**　　　　　　　　Duration: **Jun 2020 - Till Date**
  　　　　　　　　　　　　　　　　　　　　　　Onsite / Offsite: **Offsite**

  Project Details: We were the core Automation team responsible for the IT Process Automation of the Horizontal Integration
  using BMC ATRIUM ORCHESTRATOR.

  TASKS:
  1. Gathering Requirements related to use case from Stake holders
  2. Building DFD for the automation use case.
  3. Developing Automation Workflow based on requirement.
  4. Testing the workflow in SIT environment.
  5. Deploying workflow in Production.
  6. Monitoring the compensation received for workflows and fixing the bugs.

- Project Title: Merck
  Client: Merck
  Nature of Employment: **Full Time**　　　　　　　　Duration: **Oct 2018 - Jun 2020**
  　　　　　　　　　　　　　　　　　　　　　　Onsite / Offsite: **Offsite**
  Project Details: Key Result Areas(BMC Atrium Orchestrator - IT Process Automation and UIPATH):

Hands On experience with BMC Atrium Orchestrator tool (ITPA) and UiPath(Robotics Process Automation) for developing Automation workflows.

End to end coordination with various teams in framing and developing the workflows for the existing manual IT operations, Debugging and deploying them in production.

Using Various Webservices (REST & SOAP) to generate Request and Response in JSON/XML from external Applications.

Technical review and performing Dry Run before client and various other stakeholders.

Working on framing the Release Document and Change list of the automated workflow designed for various ongoing operations.

Testing the Workflows in Non-Pilot Environment using ALM VEERA Tool.

UIPath Orchestrator used for managing the processes, bots,jobs and queues.

creation of SDD after carefully examining the TDD from customer.

involved in code review for the code created against the RPA not built.

Affirmative Action

Category: General

Physically Challenged: No

Work Authorization

Job Type: Permanent

Employment Status: Full time
