         Tomcat8, Maven, Json, Eclipse.
Other Tools   : SVN for Code version control, Eclipse IDE, Maven

Description:
AFAMS includes Mobile Application and Web application developed for Assam Forest Department for their survey related aspects. This application helps the officers to submit the reports using their mobile handsets, along with the photographs and Latitude and Longitude. It also provides the live tracking functionality. The good thing about the application is that it can be used in offline mode also in remote areas where there is no internet connectivity. Where the web app can add, show and edit recorded data. The modules of this project are User registration, survey of Plantation, Nurseries, and Buildings, Wildlife objects, Offence report and Live Tracking.

Responsibilities:
Analyzing the design document.
Written complete Rest services.
Involved in complete coding and Defectfixing.

Magna Infotech Pvt. Ltd. as Software Engineer
Jan 2016 to May 2018

PaxWeb

Domain   : Employee Management
Team Size   : 10
Role   : Software engineer
Duration   :March 2017 - June 2018
Environment   : JDK 1.7, J2EE, Spring 3.2.6, Hibernate 4.1.9, Restful 2.0, MySql,
            Wildfly 8.0
Other Tools   : SVN for Code version control, Eclipse IDE, Maven

Description
* It makes easy for the employer to keep track of all records of employee. It allows the administrator to edit employees, add new employees, transfer/promote/terminate employees. Each employee in the database is associated with a position can be added and edited when need arises. Employees can be transferred between positions easily without having to retype back their information in the database.

* Most of all, the employer can assign tasks to employees and assess their progress in order to keep track of employee performance.

* Attendance management tool which allows controlling employees' attendance by automating timekeeping and attendance tracking. Captures data from swipe-in/swipe-out of employee ID cards.

Role and Responsibilities
Developed Attendance Management System.
Written RestAPI for all the modules on which I worked.
Developed Leave Management System.
Implementation of HR module.
Testing and debugging the application.

eCorp
