Worked in various functional domains such as Customer & Marketing, Retails, Insurance & Health care.
Strong analytical, problem solving, relationship building, organizational, planning, team building, mentoring, negotiation, and communication skills.

Work Experience

EPAM Systems as Senior System Engineer
Dec 2020 to Till Date

Working as Cloud & DevOps Engineer for a client in Financial sector

Deloitte as Senior Consultant
May 2017 to Dec 2020

Selected Project Highlights
Industry/Client and Location: Commerce and Digital Marketing .   Duration: 18 months
Project Description/Scope: Build CI/CD pipelines for various projects developed under our Product Eco-System. This involved Python, .Net, NodeJs, Vue applications and Some ETL tools such as Talend.
Role: Senior Technical Consultant

Responsibilities/Deliverables:
*   Engage with projects tech leads to understand technical components and strategize delivery pipelines
*   Analyze requirements and build Docker images and manage artifactory
*   Build Helm charts and test deployments on kubernetes clusters
*   Prepare a complete CI/CD pipeline using Codefresh for dev teams to ease the deployments.
Achievements: In this short term period, I got familiar with various tools and have trained 3 junior practitioners to help them get on boarded to our team.

Industry/Client and Location: Commerce & Digital Marketing.   Duration: 12 months
Project Description/Scope: Modernization of Product Suite
Role: Technical Consultant

Responsibilities/Deliverables:
*   To build Cloud agnostic micro services of existing assets which were based on .net 2.0 Framework
*   Made enhancements to increase application performance and scalability, built various DB connectors (Mongodb, PostgreSql, Redis) so that applications can fit into client eco-systems
*   Built Docker containers (Linux and Windows based) to increase portability of applications and created automated Codefresh pipelines for code deployments to Kubernetes systems
*   Also involved in client deployments and managing customizations based on client requirements.
Achievements: Effectively applied best practices and modernized various .net applications to High performing, scalable micro services.

Industry/Client and Location: Health Care   Duration: 8 months
Project Description/Scope: Build a centralized, omni-channel application that provides end user a detailed, real-time view of Lab Experiments that have been carried out at a Lab Research Center
Role: Technical Consultant

Responsibilities/Deliverables:
*   Build backend micro services that are deployed to AWS Lambdas
*   Engaging with UI team to understand the data requirements that can be sourced from backend API's
*   Understand complex client subsystems to analyze the data sources and manipulations as per application requirements
*   Build connectors to manage Integrations to various client components such as WCS, Saleforce, Hana etc
*   Worked on CICD pipelines and automated deployments through Jenkins to deploy .net Core microservices to AWS environments
Achievements: Involved in UAT, Staging and Prod deployments with Client Technical team and helped improve the application performance and manage Cloudwatch, Alerting mechanisms

Other Project Initiatives with Deloitte
*   Built various tools and POC's outside project to help Organization with certain Internal Initiatives and Client challenges
*   Participated in 2 day Adobe-Microsoft hack-a-thon to build a Chatbot application with Azure Tech Stack.
*   Developed A web based chat bot application that connects with in-house marketing web-site which performs all the e-commerce activities such as login, Search Products, Product Recommendations, View Cart, Wishlist items, Check-out items and etc. making website activities simpler.
*   Built a Facial-recognition enable Digital signage software that does Ad-ranking based on sentiment analysis, which helps service providers to enhance the ad-campaigns

Infosys as Senior System Engineer
Apr 2015 to May 2017

Hansa Solutions India pvt ltd as Software Developer
Sep 2012 to Apr 2015

Education

UG: **B.Tech/B.E. (Electronics/Telecommunication)** from **Jawaharlal Nehru Technological University (JNTU)** in **2012**
