Work Experience

Lionbridge Technologies as Software Engineer-Asp.Net MVC
Aug 2020 to Till Date

Role : Asp.Net MVC Developer

Project Description:
The critique roadmap, in its current state, is manually maintained in an excel sheet and shared via the sharepoint. It was difficult to be maintained. The critique roadmap will incorporate the new features and streamline the current feature to improve the process of critiques. It will create a consolidated tracking tool. This will help in customization of reports such as Avacado reports, WIN32 and WAC reports. This will monitor and validate the data importing from ECS into critiques.

Team Size: 8
Methodology : Agile, Scrum
Environment: .Net 4.8(ASP.Net MVC 5.2.3, C#), SQL Server 2014 & Visual Studio 2019.
