Work Experience

🔘 **Infosys Limited** as System Engineer
Aug 2019 to Till Date

Apple GBI portal is a single point of entry for all dashboards, analytics and User Interface (UI) solution. It supports a wide array of technologies, 100+ dashboards and web applications. The user base is more than 100,000 and there are more than 50,000 hits per day.
Responsible for supporting dashboards UI, carrying out maintenance and support related activities, managing user and owner accounts.
Technology/Framework/Tools: PL/SQL, Business Objects, Apple Central Station Ticketing Tool, Tableau, UNIX, Teradata, Oracle, Vertica, Autosys, UI dashboards, BB Edit, MS Office, Splunk, Webex, iTerm, Slack
Object Oriented Programming and Data Structures using Python on Eclipse IDE
Oracle Database, Data Definition, Manipulation and Control Languages.
iMac and iPhone application development using XCode IDE and Swift 4 language.
Technology/Framework/Tools: Python, MySQL, Swift 4, C/C++, Eclipse, Xcode
Developed an iPhone application called "Infy Facilities"
This application was developed for better co-ordination amongst employees, managers and staff with respect to facilities at Infosys Mysore campus. Employees can raise any request or complaint. Managers assign staff to complete requests raised by employees and handle complaints. An administrator manages account and passwords of the managers, employees and staff. I was responsible for the design and development of employee module which includes both UI and backend. Tools and technologies: Xcode (Swift 4), NetBeans (Java), Oracle (MySQL).
