Summary

A highly accomplished individual who has recently obtained a prestigious master's degree in data science from a leading UK university. Also holds over 4 years of professional experience covering IT and technology services and education.
Experienced in analysing and modelling data to identify actionable insights, adding efficiency to business and technical processes, supporting the delivery of strategic software implementation projects, utilising cutting-edge programming languages to meet the expectations set by customers.
A goal-orientated and results-focussed individual who enjoys working with people from all backgrounds and is always ready to take on new challenges. Looking forward to gain experience and start my career in the field of data science.
