Summary

A highly motivated business professional and Certified Scrum Product Owner (CSPO®) from Scrum Alliance having 5 years of experience in Business Analysis, Banking, BPM, Product Management and Process Reengineering possessing excellent communication, client handling, multi-tasking, and analytical skills

Work Experience

◉ **Newgen** as Senior Business Analyst
Jun 2018 to Till Date

   *   Coordinated and established rapport with multiple business stakeholders for understanding their As-Is Process & business pain points and gathered project requirements for modelling the To-Be process
   *   Presented the Client with the Solution Scope during the Kickoff Meetings and provided resolution to their queries
   *   Analyzed business requirements for preparing high level business documents such as Software Requirement Specification, Gap Analysis, User Stories, Acceptance Criteria, Requirement Traceability Matrix, Process Flows and User Manuals
   *   Gathered Requirements for API's (Soap and Rest API's) and created API Specification documents
   *   Working Knowledge of Scrum and Waterfall Framework for Software development
   *   Served as a Solution Consultant on Corporate Lending and Account Opening Solutions for a leading Middle East and Africa based banks
   *   Designed wireframes for the product for the purpose of prototyping
   *   Given product demos to various prospective clients.
   *   Aligned with Pre-Sales Team in responding to various RFP's
   *   Trained the end business users on the new product during the UAT phase
   *   Managed multiple projects with stringent deadlines, providing in-time delivery of high-quality deliverables
   *   Managed and coordinated Defect Analysis, Tracking and Reporting process

◉ **Infosys** as Test Engineer
Jun 2014 to Apr 2017

   *   Served as a functional expert for UK Faster payments scheme for offshore team which accelerated the business process
   *   Reduced 20% cost for the client by automating the test scripting process which also reduced the turnaround time for the client deliverables
   *   Managed and coordinated Defect Analysis, Tracking and Reporting process using HP Quality Center
   *   Managed, mentored, and trained a team of 3 people.
