Work Experience

🔘 **Endeavour Software Technologies (Genpact)** as Principal Consultant
Apr 2009 to Till Date

Involved in designing, development and requirement analysis of various products and projects being implemented at Endeavour

PROJECTS

Project Description: ETL Engine is comprised of micro services responsible for extracting data received from various university partners. NServiceBus with RabbitMQ as transport mechanism is being used for communication between microservices. Files received from partner universities are placed at specified folder location. First microservice named "File Watcher" will pick a file for processing and meta data for that file is created in database. Required events are triggered to flow the file processing trough other microservices like "File Validator", "File Adaptor", "Delta Extractor", "Transform", "Row Validator" and "DB Loader". All the file and data configurations are managed through web portal.
Platform Tools: C#.Net 4.5.2, NServiceBus, RabbitMQ, SQL Server 2015, ASP.Net 4.5.2, AngularJS
Development Language: C#, JavaScript, HTML5
Other Tools: TFS, VersionOne

Role and Responsibilities: Actively involved in the following functional areas-
Individual Contributor
Peer Code review
Design discussions

Project Description: APDigitize is a custom CMS tailored to fit specific needs. Before APDigitize, there were about 40 to 50 individual partner university websites. Managing them individually was very difficult and time-consuming activity. APDigitize provided a central place to manage all those websites. Plus, made it data driven. APDigitize provided a way to manage partner university data like programs, courses, fees, program calendar, faculty, articles, blogs etc. Using this data pages can be generated on the fly. Also, it provided a central workflow system which manages what goes to production website.
Platform Tools: C#, ASP.Net 4.5.2, Angular.JS, MSMQ, SQL Server 2015

Platform Tools: C#, ASP.Net 4.5.2, AngularJS, MSMQ, SQL Server 2016,
Development Language: C#, JavaScript, HTML5
Other Tools: TFS, VersionOne

Role and Responsibilities: Actively involved in the following functional areas-
Individual Contributor
Peer Code review
Design discussions
Managing small offshore team of 5 people

Project Description: r.e.Cascade is a comprehensive, end-to-end solution for the management and disposition of real estate properties. This single, turnkey application was designed to handle all aspects of default services, including auction and closing, while having the flexibility to customize separate and original workflows for multiple user and asset types. Although designed to meet these needs independently, the integrated technology platform can also connect directly to other systems to integrate tasking and reporting within the r.e.Cascade system. This convenient and user-friendly interface makes it easy for users to incorporate r.e.Cascade into any existing workflow.
Platform Tools: ASP.Net 4, SQL Server 2012
Development Language: C#
Other Tools: TFS, JIRA

Role and Responsibilities: Actively involved in the following functional areas-
Individual Contributor
Peer Code review
Design discussions

Project Description: As part of Schneider Electric's innovative Wiser home management solution, WiserSmart is a free application for the iPad, iPhone and Android that lets users take advantage of Green Button data and make the most of their energy. As an interactive energy management tool, the application combines the following two powerful features: WiserSmart presents Green Button data in an engaging format that goes beyond simple charts and graphs by creating compelling infographics, which give users insight into their energy usage. These Wiser Infographics make energy data beautiful, informative, and entertaining!
Wiser Smart also provides a convenient interface for the Wiser home management solution, which monitors residential energy usage and gives users the ability to control their household devices. This hardware ecosystem includes the Wiser Coordinator, Wiser Smart Thermostats, and Wiser Load Control devices & Smart Plugs.

Education

UG: **B.Sc (Physics)** from **Shivaji University, Kolhapur** in **2006**

PG: **MCA (Computers)** from **solapur university, solapur** in **2009**
