    Implement JReports using RCM designer.
    Releasing SN requests.
    Prepare CCF document and Release note using QCExplorer.
    Involved in Change Requests
    Analysis of Change Requests, involved in coding and Implementation of the Change Requests etc.
    Involved in manual testing, Unit Testing and Integration Testing.
    Involved in coding.
    Analysis of Client Problems, Implementation and fixing of the bugs.
    Involved in Production Support.

Polaris Software Lab Limited
Oct 2009 to May 2010

Project Name   : ITCOSTMANAGEMENT
Duration   : Oct 2009 to May 2010
Technology   : java, JSP, Struts1.x, Dojo, IBaits, JSon, PL/Sql, Java script,CSS,HTML
Role   : Development.
Description   :

Provide information about Servers and Applications related to a cost center. An Owner who maps the Server with this Application. We will roll up through cost centers of validate to find the owner. If while rolling up, we found a cost center which is already associated with this Server, we will attach this application to this Server through that owner. Percentage of Ownership - Since the validate of the Server
Application association is not giving any information about the cost center directly. How should percentage be allocated Do we need to design uniform distribution for this as well
Application Percentage - User can allocate percentage to his newly associated application. If the percentage of already associated applications adds up to 100, user can be asked to reduce the percentage of others so as to accommodate the percentage of his newly associated application. User shall be prompted for uniform distribution of the applications attached.
Responsibilities:
As a team member, was responsible for
    Developed scripts for continuously running Tomcat and Apache servers using
    VB script and bat file and schedule tasks.
    Developed code for sending mail including body image.
    Learn dojo, Ibatis, Cahche, and JSon quickly and implement in the application.
    Implement URL's for The Application using Tomcat server files and virtual host.
    Performed manual testing.
    Involved in Unit Testing and Integration Testing.
    Involved in coding.
    Analysis of Client Problems, Implementation and fixing of the bugs.
    Involved in Production Support.

Education

UG: **B.Sc (Computers)** from **Nagarjuna University** in **2001**

PG: **MCA (Computers)** from **Madras University** in **2004**
