Project Engineer seeking roles in Software Engineering,Software Development,Application Development,Project Management,Data Structures,Algorithms,python programming,Jenkins,Django,git,PostgreSQL,docker

Current Designation: Project Engineer

Current Company: Wipro

Current Location: Bengaluru / Bangalore

Pref. Location: Bengaluru / Bangalore,Hyderabad,Kolkata

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: project engineer,software developer,application development,project management,requirement gathering,data structures,algorithms,django,python,json,Rest,Docker,Jenkins,GIT,Multithreading,OOPS,Linux,ORM,Postgresql,Html5,Nginx,C

Total Experience: 2 Year(s) 8 Month(s)

Notice Period: 2 Months

Highest Degree: B.Tech/B.E. [Electronics/Telecommunication]

Verified :　　Phone Number |　　Email - id

Last Active: 19-Jan-21　　　　Last Modified: 19-Jan-21

Summary

Software developer with hands-on experience in python with application development & maintenance, requirement analysis to system study, design, coding, testing de-bugging & documentation. Having experienced in developing RESTful web application and Server-side application using python and python framework like Django Rest framework. Knowledge of advanced level programming in python including IPC, thread synchronization in multithreading, concurrency, socket programming, async.Hands-on with implementations and knowledge of efficient data structures, algorithms. Worked in multiple SCM tools like Git, perforce. Have knowledge of building and integration with Jenkins. Experience in Waterfall & Agile Methodologies and participated in daily Scrums.

Work Experience

Wipro as Project Engineer
Feb 2018 to Till Date

Software developer with hands-on experience in python with application development & maintenance, requirement analysis to system study, design, coding, testing de-bugging & documentation. Having experienced in developing RESTful web application and Server-side application using python and python framework like Django Rest framework.
