Work Experience

🔘 **American Legal Net India Pvt. Ltd** as Team Lead & Application SQL Developer
Jul 2018 to Till Date

Project/Client: eFiling Application (https://www.efilingportal.com/)
Domain: Legal firms
Description: American Legal Net provides software which is accurate, easy to use & rule-based docketing   and calendaring software for law firms (Major clients: Skadden, ALSTON & BIRD, Morrison Foerster). It has connections with US Court, Agency, Attorneys and Legal Firms. It also maintains the docketing system   for reminders, court data & documents.
Responsibilities:
    Gathering the requirements from client and implementing the functionalities as per the legal standards
    Collaborating with Customers and Product Manager to prioritize and validate requirements
    Executing plans for long-term goals using Microsoft Project
    Coordinating the work efforts of 14-Person Team for various projects; assisting team to complete tasks successfully & on-time and resolving obstacles encountered by team members
    Coordinating & participating in weekly estimation meetings to provide high-level estimate (story points) for backlog items
    Administering multiple projects CRMT (Court Rules Management Tool) & eDockets web application to manage dynamic requests
    Integrating the data between CRMT and eDockets web applications
    Preparing & modifying the SSRS reports as per the client requirements
    Developing Web API Service to communicate with Auto Document System & Email Exchange
    Creating XML Web Services for application to retrieve costing information
    Using JQuery & JavaScript to validate all the User Inputs for interactive ASPX pages

Environment: SQL 2017, SSRS/SSIS, C#, ASP.Net, ASP.Net MVC, VS 2017, Bitbucket, Web API, AngularJS, JavaScript,   HTML/CSS, JQuery, LINQ, ADO.Net entity framework, Agile Methodology, Jira Software, Confluence,   Source Tree, Bitbucket, DevOps

- **Vedhas Technology Solutions Pvt. Ltd** as Senior Software Developer
Jun 2016 to Jul 2018

Project: Envision (https://www.envisionoverseas.com/)
Domain: Educational Services
Description: Envision is a dynamic web application which guides students after their primary school. This   contains dashboards for the parents regarding their kids' activity. It also includes the messaging system   where every student has access to write essays & other competition related   topics and send to coaches.   Coaches will assess those essays and write back to students.
Responsibilities:
    Facilitated improvement in team delivery commitments & capacity planning for sprints by identifying & tracking hidden tasks that increased customer satisfaction
    Ensured Agile Adoption Retrospective for the organization with the leadership and guided teams with outcome resulting in enhanced performance
    Collaborated with client's team on project to implement Entity Data Access Layer (DAL), Business Logic Layer (BLL), Model-View-Controller (MVC), User Controls and Custom Controls
    Worked in Software Development Life Cycle (SDLC) environment and developed CSR applications with MVC comprising Analysis, Design, Implementation and Testing
    Exchanged data from database, used ADO.Net objects and developed LINQ Queries
    Used Asynchronous Calling of JSON, jQuery & AJAX to implement validations for all Input Controls
    Utilized jQuery to load data from controller to view
    Implemented various state management techniques to manage Sessions and Query Strings
    Debugged applications with Visual Studio .Net Debugger and Trace Functionality
    Consumed Web API to store product data in SQL Server Tables
    Created tables, joins, functions, views, constraints & triggers in Microsoft SQL Server 2017; liaised with team to design and implement module level unit test cases
    Contributed in Smoke Testing to ensure different integration points of the system and key business functionality met requisites

Environment: C#, ASP.NET 4.5, Visual Studio 2015, ASP.Net core 2.0, ASP.NET MVC 5, ADO.NET Entity Framework,   LINQ, SQL Server 2017, jQuery, AJAX, XML, HTML5 & CSS 3, JavaScript, WEB API, IIS 7.0, HTTPS   Protocol, Windows 2007, GITHub, Jenkins

- **HireITPeople LLC** as Senior .Net Developer
Apr 2015 to Apr 2016

Project/Client: Nike Inc. (Retail https://www.nike.com), Beaverton, OR, USA
Domain: Product based
Description: Global Store System (GSS) includes various applications including Point of Sale & Inventory
    Management. The Point of Sale System had a Register Application that was used by store cashier to perform
    customer transactions at store check-out, and a back-office application that helps manage the start of day,   end of day and cash management activities related to store operations.
Responsibilities:
    Headed Application Engineering Team to fix all point of sale software issues and customized applications running for the client
    Collaborated with vendor to provide & report any issue during store operations
    Contributed as a part of Level-3 Support Team to define production support strategy & resolve production issues
    Developed multiple automation tools to avoid any issues in daily store operations
    Defined release strategy for maintenance releases to Global Nike Stores and Corporate Servers
    Coordinated with various Business Units, Development Team, Quality Assurance Team, Operations Group and Change Management Team to plan, manage, and implement production releases
    Administered 24*7 On-Call support for store solutions across global locations
    Assisted Project Manager, created a comprehensive set of non-functional & functional requirements, and established processes to improve operations by automation, better reporting & metrics
    Tracked and reported status & other metrics against goals on an ongoing basis and ensured task completion on time; managed a team in offshore location

Environment: C#, .NET 2.0/4.0/4.5/4.5.1/4.5.2, SQL Server 2008/2012, Visual Studio 2012/2013/2015, ASP.NET   MVC 4/5, ADO.NET, LINQ, JQUERY, AJAX, XML, HTML5 & CSS 3/4, JavaScript, AngularJS, BootStrap,   WCF, Web Services/Web API, SOAP, IIS 7.0, Windows 2007/2008, GIT Bitbucket & GIT SVN, JIRA Board

Education

UG: **B.Tech/B.E. (Electrical)** from **Jawaharlal Nehru Technological University (JNTU)** in **2011**
