Software Engineer seeking roles in Software Development,Application Development,Blockchain Developer,Requirement Gathering,Solution Architecture,Defect Tracking,Bug Fixing,Coding & Testing,Functional Specifications,C#,MySQL,Hyperledger Fabric,asp.net

Current Designation: Junior Software Engineer

Current Company: chainvine

Current Location: Gurgaon

Pref. Location: Pune,Delhi / NCR,Hyderabad

Functional Area: IT Software - Application Programming / Maintenance

Role: Software Developer

Industry: IT-Software/Software Services

Marital Status: Single/unmarried

Key Skills: Software Engineer,Blockchain Developer,Software Developer,Software Development,Application Development,Requirement Gathering,Solution Architecture,Defect Tracking,Bug Fixing,Coding & Testing,Functional Specifications,C++, MySQL, Node.Js, Asp.net Core

Verified :   Phone Number | Email - id

Total Experience: 2 Year(s) 3 Month(s)

Notice Period: 15 Days or less

Highest Degree: B.Tech/B.E. [Computers]

Last Active: 19-Jan-21   Last Modified: 19-Jan-21

Summary

*   A qualified professional over 2 years of pervasive experience in Application Development using HTML, CSS, JavaScript, Hyper ledger Fabric & Sawtooth, Docker/Ansible, MySQL, SQLite, C++, C Sharp, ASP.NET Core
*   Provided insightful knowledge of business process analysis and design; managed application based process re-engineering, process optimization, cost control, revenue maximization from technical solutions using cutting-edge technologies; possess knowledge of working on Hyperledger fabric a private Blockchain, .Net Core 2
*   Understanding of Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications
*   Led the implementation of best practices for software development realizing improvements in efficiencies, risk, and less business interruptions

Work Experience

chainvine as Junior Software Engineer
Jul 2018 to Till Date

Chainvine as Software Engineer
Jul 2018 to Oct 2020

Role:
?   Working on the project and monitoring framework with a complete environment that is built on front-end using custom
?   Developing software solutions by studying information needs & systems flow, conferring with users, data usage
?   Coordinating with Client & Testing Team to identify & implement improvement in application performance
?   Ensuring that the goals of the Incident Management process are achieved
?   Managing debugging and bug fixing of the modules; indulge in writing web services to make banking functionalities available cross platforms
?   Establishing technical designs, installing application software and deploying customizations; contributing code reviews
?   Appearing in review meetings with the team to discuss about the progress of projects as well as for identifying gaps and suggesting effective solutions for the same
?   Conceptualizing methods for application development and ensuring that the design meets user need
?   Providing best solutions to clients involving evaluation of scope of project and finalization of project requirement

?   Mapping requirements & providing best solutions involving evaluation and definition of scope, , scheduling, budget and resources of projects; leading projects from inception to implementation

?   Spearheading end-to-end Software Development Lifecycle including design, development, testing, troubleshooting and debugging of Software; translating the business requirements into Use Cases

?   Suggesting corrective action plans in order to support cross-functional teams; identifying needs for training and conducting knowledge sharing sessions with team members on products and its modules

PROJECTS UNDERTAKEN

Sep'18 ? Mar'19 Chainvine Platform ? Asp.net Core, Hyperledger Fabric

Mar'19 ? Sep'19 Extended Producer Responsibility ? POC, Hyperledger Fabric

Sep'19 ? Apr'20 Seychelles National Asset Management System - Asp.net Core Application, Hyperledger Fabric, NodeJs
Mar'20 ? Oct'20 Intelligent Wines - Asp.net core Application, Hyperledger, Sawtooth Android, NodeJs

Education

UG: **B.Tech/B.E. (Computers)** from **poornima college of engineering, jaipur** in **2018**

IT Skills
