Capgemini India Pvt Ltd as Consultant
Oct 2012 to Jun 2015

In Capgemini India Pvt. Ltd.
Duration: Oct'12 - Jun'15
Role: Consultant
Project Name: Discover Financial Services (Diners Club International)
Environment: JDK1.6, Servlet, Java Beans, Spring IOC, JSF, HTML, Prime Faces, JPA, RSA IDE, WebLogic, Maven, Oracle
Description: Discover Financial Services, Inc. is and American financial services company, which issues the Discover Card and operates the Discover and Pulse networks. Discover stated that the Diners Club Network, which is a major network outside North America, will be merged with the Discover Network, a major network in North America creating an international network for Discover Network Cards and Diners Club Cards. Diners Club cards will continue to be issued by Diners Club International licenses. Discover Bank has no plans on issuing Diners Club branded cards itself. Diners Club is a charge card company in the world that established an idea of a self-sufficient company producing credit cards for travel and entertainment. Diners Club International and its franchises service high net, affluent and well-travelled individuals from around the globe. Diners Club created what would later be dubbed the "travel and entertainment" (T&E) card market, which focused on frequent travelers with a substantial income to pay for other high-value charges. As these customers had no need to pay for purchases over time, these cards required that the entire balance of the bill be paid upon receipt. This type of account is known today as a charge card.
