Work Experience

◉ **TechMahindra** as Information Security Analyst
Mar 2017 to Till Date

Project – 1
*   Associated British Foods plc (ABF) is a British multinational food processing and retailing company-having headquarters in London, United Kingdom.
*   Currently, each of the ABF group companies operates its own methodologies and processes in relation to managing security. ABF has identified RSA Archer eGRC tool for consolidating and publishing the security dashboards and reports.
*   The RSA Archer tool will achieve the below business benefits:
*   Consistent metrics and reporting for Security compliance across the AB Group
*   Reduced time for resolution of issues identified through various sources like compliance assessment and risk issues at ABF
*   Reduction of overtime/reactive overload for business operations and IT responding to issues
*   Reduced time and effort required to create, modify and manage policies
*   Single window to view and understand the ABF information security policies and requirements
*   Conduct online policy compliance assessments and automate the population of security posture dashboards
*   Auto-population of dashboards from various security testing and monitoring sources like Qualys, SOC, Anti-phishing activities etc.
*   Real-time availability of reports and dashboards
*   Increased accountability through workflows and assignment of activities
*   Automated alerts, reminders, and escalations etc.
*   ABF used below three use cases for this project in RSA Archer version 6.1:
*   Issue Management
*   IT and Security Policy Program Management
*   IT Control Assurance Management
Project - 2

*   Conducting User Access Review for applications of Vodafone Hutchison Australia
*   Planning and implementing security measures to protect computer systems and networks and data.
*   Creating, testing and implementing network disaster recovery plans.
*   Recommended improvements in security systems and procedures Coordinating with client and resolving their query on security aspects.
*   Implemented company policies, technical procedures and standards for preserving the integrity and security of

implemented company policies, technical procedures and standards for preserving the integrity and security of data, report and access.
*   Conducting audits on monthly, quarterly and yearly basis for all critical applications.
*   Reconciling accounts on the systems in scope against HR's latest employee data, provide recommendations on the treatment of accounts based on the account status and HR status,
