Work Experience

Vinculum Solutions Pvt Ltd as Full Stack Developer (Java)
Dec 2018 to Till Date

Project Name: Vin eRetail
Vin eRetail offers e-commerce software for multi-channel retailing which helps vendors to manage our products, inventory, orders, purchase, warehouse and returns management to enable retailers and sellers to go online to grow their sales. Successfully generated back-end programming utilizing Rest API, Java, Hibernate, Struts , JSP, JQuery, jqGrid, MySql.

Project Name: Vin Graph
Worked on statical graph representation i.e. dashboard, where user can view all there data like total sale, full-fill orders, Revenue generated etc. Successfully generated back-end programming utilizing Spring MVC, Mybatis.

Project Name : Vin Swagger
Implemented Swagger/Swagger UI to streamline endpoint documentation using YAML and deploy on the server
